MEDIA STATEMENT

ACKNOWLEDGEMENT OF SME REGISTRATIONS ON THE SIYATHEMBA SME DATABASE

Siyathemba Local Municipality wishes to express its appreciation to all Small, Medium and Micro Enterprises (SMMs), cooperatives, informal traders and local businesses that have successfully registered on the Municipal SME Database.

The positive response reflects the commitment of the local business community to inclusive economic growth and collaborative Local Economic Development (LED).

Information gathered through the database will assist the Municipality to:

- Compile an accurate profile of local businesses
- Improve planning and implementation of LED programmes
- Communicate relevant training, support and development opportunities
- Strengthen engagement with development partners and stakeholders

The Municipality reiterates that registration on the SME Database does not guarantee funding or procurement opportunities, but enables improved coordination, communication and business support.

Registered businesses will be contacted should additional information or documentation be required. Businesses that have not yet registered are encouraged to participate when future registration opportunities are announced.
